## ILLINOIS DEPARTMENT OF CORRECTIONS

## Mental Health Diagnostic and Treatment Note

Offender Name: Gunn, JosephID# K57163Date: 06/15/07

## Juvenile Facilities Only:

Housing Unit: \_\_\_\_\_

Correctional Counselor: \_\_\_\_\_

Psychiatrist: \_\_\_\_\_

Psych Medication: \_\_\_\_\_

Mental Health Level: \_\_\_\_\_

Recommended Mental Health Level: \_\_\_\_\_

## Reason for Referral:

☐ Initial Evaluation    ☒ Medication Review    ☐ Mental Health Level Change    ☐ Crisis Response

☐ Group Note    ☐ 1:1 Note    ☐ Parole Clearance    ☐ Family Therapy    ☐ Other \_\_\_\_\_

Subjective Data: DPU enforced medication update. Patient reports breast enlargement which started a few months ago. At this time, he reports some discomfort around breast area but he denies any pain or discharge. I did discuss making a medication adjustment with patient. Patient apparently indicated that he was not comfortable discussing this issue previously, but that the breast enlargement has continued to grow every month since he first noticed it a few months ago. Otherwise, patient continues to do well in DPU and is stable on enforced medication regimen.

Objective Data: Mental status exam: he was alert and fully oriented. He was adequately dressed and groomed. Patient does show evidence of gynecomastia. Mood was euthymic. Affect was full range. He denies any hallucinations. No delusions were noted. Thought processes were logical and goal-directed. He denied suicidal or homicidal ideations. Insight into his mental illness and need for chronic treatment does remain limited.

## Assessment/Diagnosis:

AXIS I: SchizophreniaAXIS II: Deferred

Summary and Treatment Plan: I will discontinue Haldol Decanoate. I will start Geodon and titrate to 80 mg p.o. q.PM enforced with 20 mg IM. I will continue Prozac 40 mg p.o. q.PM and Benadryl 50 mg p.o. q.PM. I did discuss the medication changes as well as the risks and benefits. He verbalized understanding and agreed to a trial. I recommend supportive treatment. Follow up will be next month or sooner if indicated.
